The Committee has the authority to set aside for payment, pay and direct the payment of the external auditors for their reviews and audits of financial statements and all other services as well as expenses (including ordinary administrative expenses) of the Committee, including for legal, accounting and other advisors.

The external auditors shall report directly to the Committee and shall be accountable to the Committee and the Board, for their reviews and audits of financial statements and other services.

The Committee, and each member of the Committee in his or her capacity as such, shall be entitled to rely, in good faith, on information, opinions, reports or statements, or other information prepared or presented to them by (i) officers and other employees of the Company, whom the Committee and each such member believes to be reliable and competent in the matters presented; and (ii) counsel, public accountants or other persons as to such matters which the Committee or such member believes to be within their professional competence.

II. Composition

The Committee shall be comprised of that number of directors (but not less than three) as may be determined from time to time by the Board. Each member of the Committee shall be an independent director within the meaning of the rules of such primary trading market or securities exchange on which the Company's securities are then traded, or if there is none, the NYSE American LLC (the "Listing Market"), and The Sarbanes-Oxley Act of 2002, as amended ("Sarbanes"), and shall be free from any relationship that would, in the Board's opinion, interfere with the exercise of his or her judgment independent from management. A copy of the independence and related rules is attached to the Charter of the Nominating and Governance Committee.

A member of the Committee may not, other than in his or her capacity as a member of the Committee, the Board or any other committee of the Board, (i) accept directly or indirectly any consulting, advisory or other compensatory fee from the Company or (ii) be an affiliated person of the Company. All members of the Committee must be able to read and understand fundamental financial statements (including a company's balance sheet, income statement and cash flow statement), and no director may be a Committee member if he or she participated in the preparation of the financial statements of the Company or any current subsidiary thereof at any time during the past three years. At least one member of the Committee shall be financially sophisticated, in that he or she shall have past employment experience in finance or accounting, requisite professional certification in accounting or any other comparable experience or background that results in financial sophistication (including being or having been a chief

executive officer, chief financial officer or other senior officer with financial oversight responsibilities).

At least one member of the Committee shall constitute an “audit committee financial expert.” A member of the Committee who satisfies the definition of an “audit committee financial expert” for SEC disclosure purposes will be deemed to qualify as financially sophisticated for purposes of applicable rules of the Listing Market. Members of the Committee may enhance their familiarity with finance and accounting matters by participating in educational programs conducted by the Listing Market, the Company, an advisor or others.

The Nominating and Governance Committee shall recommend directors to be elected or terminated as members of the Committee. The members of the Committee shall be elected by the Board at the annual organizational meeting of the Board or at such other times as the Board may determine. Each member of the Committee shall serve until the next annual organizational meeting of the Board or the earlier of his or her termination as a member of the Committee by the Board, the election of his or her successor as a member of the Committee or his or her death or his or her resignation or removal as a director. Unless a Chair is elected by the Board, the members of the Committee may designate a Chair by a majority vote.

III. Meetings

The Committee shall meet in regular sessions at least four times annually and in special sessions as circumstances warrant. Each regularly scheduled meeting shall conclude with an executive session of the Committee without members of management present and on such terms and conditions as the Committee may elect. Committee members are expected to attend meetings and to spend the time needed to properly discharge their responsibilities. Members are present for purposes of a Committee meeting if they appear in person at the meeting or by telephone or video conferencing whereby each member can speak to and hear every other member.

The Committee shall meet at least once annually with management, internal auditors, where applicable, counsel for the Company and the external auditors in separate executive sessions to discuss any matters that the Committee or any of them believe should be discussed privately. A majority of the members of the Committee shall constitute a quorum for the transaction of business. The act of a majority of the members present at any meeting at which there is a quorum shall be the act of the Committee. The Committee shall keep minutes of all of its proceedings.

IV. Procedures

The Committee shall determine its meeting schedule, the agenda for each meeting, the information to be provided to it before or at each meeting and all other matters relating to the conduct of its meetings and other activities.

The Chair of the Committee shall establish and distribute (or request the Secretary to distribute) to each Committee member prior to each meeting an agenda for the meeting. Each Committee member is free to raise at any regular meeting subjects that are not already on the agenda.

Information that is important to understanding the business to be conducted at a meeting should generally be distributed to the Committee members at least one week (or, if that is not feasible, as soon as practicable) before the meeting, and Committee members should review these materials before the meeting.

It is the sense of the Board that, subject to Section V below, the activities and procedures of the Committee should remain flexible so that it may appropriately respond to changing circumstances.
